Forecast for Wednesday 06 Oct 2021

Weather: Some cloud over the northern ranges into the morning before dispersing but most areas seeing some good sunny spells from the outset and for much of the day. High cloud thickening from west during the afternoon then thickening to bring some occasional rain in the evening, with hill fog developing later. Sleet possible on the highest Cairngorm summits briefly.

Chance of cloud free mountain/hill tops above 800m: 30% at first in north otherwise 90% during the day, falling 20% mid to late evening.

Visibility: Generally good away from cloud, but moderate or poor later in the evening as the rain and drizzle develop.
